### DESCRIPTION

The Clarksburg Master Plan, approved in 1994, allows for the potential development of 15,000 housing units. The first phase, the Clarksburg Town Center, is beginning to be occupied. Development of this community will result in the formation of a new cluster of schools. A new high school is needed to provide relief to the Damascus, Seneca Valley, and Watkins Mill clusters.

The current Rocky Hill Middle School facility was designed to be converted into a high school facility when needed. A feasibility study to determine the scope and cost of this project was completed in FY 2001. Due to fiscal constraints, modernizations and individual school projects were delayed.

In FY 2003, planning funds were approved to convert this middle school facility to a high school. An FY 2005 appropriation was approved for construction funds. This project is scheduled to be completed by September 2006.
